Hijacking Tips:

1. Look out for the vehicle following you especially when you are about to open or close the gate.
2. Most carjackings are now happening at night , stay alert and vigilant all times.
3. Rather go pass your gate if you suspect something and ask nearby police for assistance.
4. If you are in danger inside your car, sound the hooter in an attempt to attract attention.
5. Don't stop to eat or rest on lonely roads but rather use resting places provided at filling station.
6. If you get a flat tyre and the area is quiet and deserted keep driving on until you get to a place to change your tyre or to ask for assistance.
7. Don't get out of your car when a person bumps you it from behind under suspicious circumstances. Rather drive to a police station where you can report the incident. It could be a trick to attack you.
8. Notice everything you possibly can about your attacker. You will be the most important witness in bringing the perpetrator to justice.
